

SENSING & CONTROL

by URT

... the impossible made simple...

As natural extension of fixed resistor, we decided to expand the business by entering the pots and sensor market.

We have made agreement with market leaders in their field with the highest level of R&D.

The objective is to offer the widest range available today covering any market including HMI solutions.

Markets

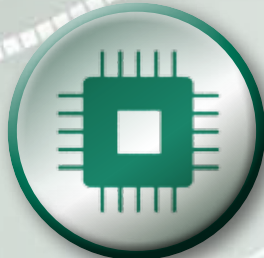

AUTOMOTIVE

OFF ROAD

INDUSTRIAL

CONSTRUCTION

MATERIAL HANDLING

MEDICAL

SENSORS

- Pots, LVDT and hall effect
- Rotation life: > 25 milion
- Rotary and linear
- Wirewound and conductive plastic
- Custom design

JOYSTICK

- Pots and hall effect
- Custom design

A&D Aerospace & Defence

- Conductive plastic
- Wirewound and hot molded carbon
- QPL LISTED RV style
- Ex Litton and Vernitron (USA)
- Servo options

POTENTIOMETERS

- Wirewound - cermet - conductive plastic - carbon
- Power up to 4W
- Servo options
- IP67

ENCODERS

- Absolute
- Incremental
- Custom design

OTHERS

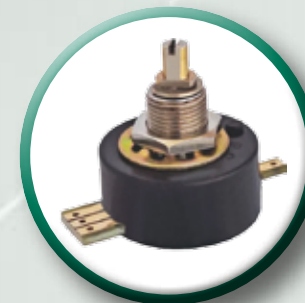

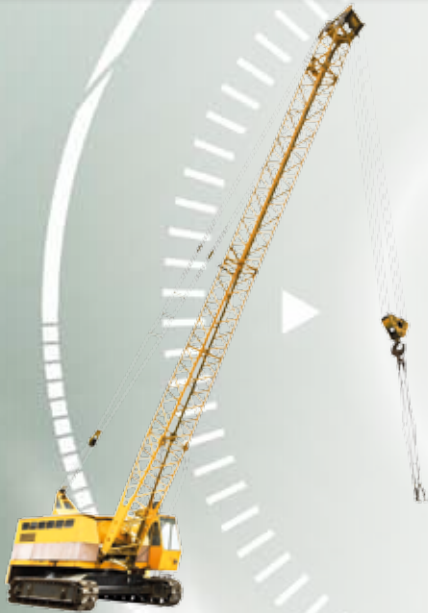

- Dials
- Pressure sensors high precision
- Foot pedal
