

Product code EF-1B000G08G-A04

Descriptions

Single phase, transient surge voltage suppression unit, 2 wire module for industrial application.

Conformance

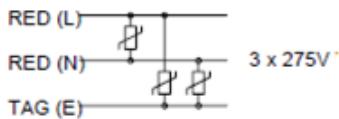

Features and benefits

- Provides overvoltage protection
- Connection through 18 AWG (0.75 sq mm) flexible wire of 150mm.
- Weight approx. 40 gram.

Image shown is for illustrative purpose only

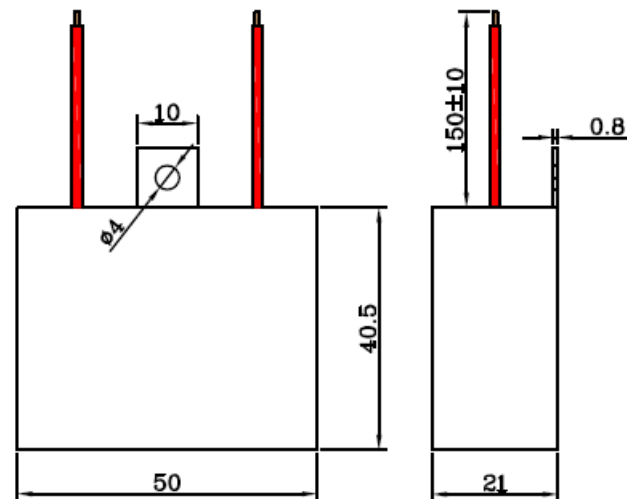

Electrical schematic

Mechanical details

All dimensions in mm.

General tolerance = ± 1 mm

Technical specifications

Rated peak current pulse	10000 Amps.
Response time	< 25 Nano sec
Rated Pulse energy	303 Joules
