

# **URT**

## **Unified Resistive Technology**

... the impossible made simple...

*Years ago we had a dream...*  
*To be leader in resistor technology, then we expanded*  
*our knowledge to heaters and sensors.*  
*Today our know-how is unattainable, like that bird.*

# WE ARE URT

---

*Market leader in:*

- Resistors
- Sensors
- Heaters
- Circuit protection

**When the challenge is resistor technology,  
the world looks here for answer.**

*a ISO9001: 2015 certified company*

*UL, AEC Q200 and NATO supplier*

# TECHNOLOGY

---

URT has one of the largest technology portfolio in the industry

# SOLUTIONS

We deliver competitive solutions  
in several industry sector

# PRODUCTION

A close-up photograph of several bees working on a honeycomb. The bees are yellow and black, with their wings spread, and are positioned on the hexagonal cells of the honeycomb. The background is a soft-focus view of more honeycomb cells.

We have 9 production plants  
offering flexibility and short lead time  
China, India, Taiwan

# TRANSFORMATION

We moved from just a component supplier  
to a world class solution provider
